Assignment 1 - Project/Commitment/Elevator Pitch

- We will be creating a Task-scheduling and management application that helps organize meetings, memos, lists, group member statuses for projects. This service will incorporate each user's email and an interactive board system. At the beginning of each week, there will be a summary of what was accomplished over the past week and what tasks are coming up. Helps prioritize tasks by assigning some sort of weight to each task. The app will also have motivational quotes that will be rotated throughout and will be based on what kind of motivation the user(s) would prefer.
- This project will better organize individuals, teams, and companies to be a more efficient body. It will reduce communication difficulties between members while also building morale and comfort into an app that will be part of our everyday life.
- This product can work for anyone; individuals, teams, and corporations.
- In order to use the product, a user will require an android device or emulator and access to an internet connection.
- Our team will start with the waterfall planning framework and change to agile after we reach the design phase. We will focus on a strong core product with

- We will break it up into modular parts:
 - a. We will create a blank canvas android app to bake in our modular components
 - b. We will then create a modular calendar feature and embed into android app
 - i. Start with a basic calendar using the MONTH/DAY/YEAR format
 - ii. Add different view options; Daily, Weekly, Monthly and a year overview
 - iii. Create a memo or task function that assigns an event to a day; can be a specific time or all-day
 - 1. Alert the user if there is a memo/ task date that overlaps with an existing one
 - c. Trello-like board system concept
 - i. Group member status
 - 1. Add a feature to list tasks
 - 2. Allow the user to reorganize tasks from top to bottom(descending importance)
 - 3. Check mark done tasks to report to group and remove from the list
 - d. Embedded emailing
 - i. Simple messaging to
 - e. Rotating quotes
 - i. Rotating intro text messages
 - ii. List of quotes that rotate
 - iii. Categorical rotating quotes
 - iv. Let you choose the topic of quotes
 - v. Create a view and hide for function
 - f. Music
 - i. Incorporate spotify
 - ii. Incorporate pandora
 - g. Customization options
 - i. Font size, background color/accent, etc.
